#### **Electromagnetic protection**

These devices are designed to protect us from the myriad of noxious unhealthy energy that we are exposed to, in our homes and work environment. The unhealthy energy created by electromagnetic fields and the geopathic stress from the natural earths grids. Both produce the harmful positive ions which build up in our bodies putting our nervous system and organs under stress. This in turn leads to a compromised immune system.

#### Geocleanse

This device plugs into an electric socket in your home or office. It deals with dirty electricity and harmonizes all noxious energies emitted from appliances and geopathic stress.

### Aircraft Cabin Harmonizer

The Aircraft Cabin Harmonizer allows the passenger to breathe easier and feel fresher lon.

The Disk is also suitable for use in aircraft, buses, trains, in public spaces such as shopping centres, hospitals, office buildings or near electrical sub stations or power lines.

Mobile Phone and WI FI Radiation Harmonizers

This devise is designed to neutralize the noxious radiation emissions from all types of mobile phones and WI FI systems.

### **Personal Protection Pendant**

These pendants are energetic tools that creates a harmonizing field of negative ion around our body to support and balance our own magnetic field.

## Car EMR

This harmonizer is a totally portable Electromagnetic Radiation neutraliser which eliminates all noxious EMR energies caused by the car's electrical system.

#### **Schumann Dome**

This dome is portable and designed especially for office situations where there are many electromagnetic devises. These healing schumann waves are produced in the earth .
